

It is rumoved that the 'U. S. gunboa' Concord will be here shortly en route to the China station. The little gunboat has threatened to visit Honolulu for some time and she will now doubtless carry out her design. The Asiatic flect is to be both weakened and strengthened. The battleship Oregon to be sent to the Coast for an over-Admiral Sigsbee, with the flagship Brooklyn and the cruisers Chattanooga and Tacoma and another warship, is to visit the Mediterranean, and all but the Brooklyn and Tacoma are to leave the fleet at Suez and go on

CHARGED WITH SMUGGLING COAL TACOMA (Wash.), December 17 .-Captain H. W. Burgess of the ship Abner Coburn is charged with smuggling coal from Newcastle, Australia, to Eagle Harbor by Frank Loftus, chief of the Custom-house inspectors, Inspector Whaley. They found that on December 10th Burgess entered his ship at Port Townsend and that his manifest showed ballast and When the inspectors went into the hold of the ship yesterday they found ten tons of coal in bulk, while 128 sacks were found on deck. where they had been placed apparently ready to be taken ashore. number of these sacks had been sold to Hall Brothers, who were innocent purchasers. The inspectors say that they have evidence that Burgess ofcoal for sale to several persons The ship is liable to seizure and her master to prosecution for smuggling. Collector Ide will be notified of the facts and Captain Burgess will prob-

ably be given a hearing at once. The

San Francisco, Cal., Dec. 9, 1965. Located in about 9 feet of water, on the southerly part of Southampton Shoal, northerly part of San Francisco Bay, and about 1 5-8 miles southerly of Point Richmond wharf and about 1 5-8 miles northeasterly from Point Campbell, Angel Island.

About December 28, 1905, a fixed white a. m. lens-lantern light, illuminating the entire horizon, will be established in the for Honoipu and Hilo, 5 p. m. structure recently completed at this

The light will be 52 1-2 feet above the

The approximate geographic position of the light, as taken from Chart No 5532 of the United tates Coast and Geodetic Survey, will be: Latitude, north, 37 deg. 52 min. (51 sec.); longitude, west, 122 deg. 24 min. (00 sec.).

The structure consists of eleven foundation cylinders carrying a platform supporting a square, two-story dwelling, with a pyramidal roof and dormers, surmounted by a cylindrical lantern. The platform also supports a cistern on the easterly side of the dwell-Midway Isle, 3 p. m.

On the same date there will be established at the station a 3500-pound bell, to be struck by machinery, during thick or foggy weather, a double blow at alternate intervals of 5 seconds and

On the same date Southampton Shoal Gas Buoy, moored on the southerly end of Southampton Shoal, northerly part of San Francisco Bay, will be permanently discontinued.

By order of the Lighthouse Board. H. T. MAYO. Commander, U. S. N.; Inspector, 12th

Lighthouse District.
FERTILIZER SITUATION RE-LIEVED.

With the arrival of the British bark Dunfriesshire of Liverpool, Captain Taylor, from Leith, Christmas evening, with fertilizer for the Hawalian Fertilizer Co., the threatened shortage of fertilizer was avoided. The bark left Leith, England, June 23 and experienced fine weather until the Horn was reached. There she had a terrible experience even for that stormy section of the ocean. Both on the Atlantic and the Pacific the bark struck light and variable winds which extended her trip from about four months to 185 days. The Dumfriesshire came into port about eight yesterday morning and is discharging her cargo of 1500 tons fertilizer and 500 tons general cargo at Railway Wharf No. 1. She carries a crew of 19 souls, all told. MAUNA LOA'S REPORT.

The Kona-Kau liner arrived at 6:40 m. Christmas Day, leaving Lehaina at 12:47 that morning.

She brought 5155 bags A. sugar, 1890 bags coffee, 247 bags taro, 62 bags beans, 49 bunches of bananas, 119 boxes wife, Mr. Terrill, James T. Taylor, Mrs. 73 packages of bottles and 138 packeranges, 9 boxes chickens, 3 boxes turkeys, 47 pigs, 29 head cattle, 13 begs Brown, E. Mable, S. Perser, H. H. butter, 732 packages sundries and 1 don-Monastes and wife, John T. Baker, J. keys, 47 pigs, 29 head cattle, 13 legs

Purser Friel reports 2500 bags of nigar at Punaluu and 300 at Honoapu. The weather was fine outward to Kau, but Saturday a blow made the sea choppy. The inward trip was through fine weather along the Kona coast. No rain in Kona or Kau.

Crossing the channels light trades

were met. The schr. Lavinia was seen off Kailua on Sunday afternoon.

DEATH OF CAPT, CALHOUN.

Captain George Calhoun, master of the bark George Curtis, formerly commanding the Ceylon, the Archer and the R. P. Rithet, died at San Francisco December 24. He was well-known here, having been on the Honolulu run most of the time for eleven years. Capt. Calhoun was born in Seattle 35 several brothers and sisters. The news! Potts.

## CHRISTMAS AT HANA.

The Claudine arrived on time yesterday as usual, 5:31 a. m., leaving Lahat-Per stmr. Mikahala, Dec. 27, from na at 9:51 Wednesday. She carried the Hilo and Laupahoehoe mail arriving there at 5:40 a. m. Sunday and left again at 7:22 for Hana which port was reached 3:51 that afternoon, where the boat lay over for Christmas.

On Christmas there was a horse race. baseball game ending 16-9 in favor of the plantation team who played against the steamer nine. There was also a donkey race which was won by Mate Geo. Townsend of the Claudine, formerly captain of the Eclipse. These lanrels helped to remove the chagrin of the sea dogs at being beaten at baseball by the land lubbers. Altogether a most enjoyable Christmas was spent.

Chas. A. Kipling, the genial purser of the Maul liner, reports that an attempt was made to land at Keanae. but there was too heavy a swell to suit the consignees. Whether good until Tuesday when a heavy easterly Per stmr. Kinau, December 26, for swell run up.

The Claudine freight list includes 64 sacks of corn, 20 sacks of potatoes, 36 ery, H. Jennings, D. D. Hendricks and sacks of taro, 30 kegs of nails, 56 hogs, ages of sundries.

## THE KENILWORTH.

The ship Kenilworth of New York arrived from Newcastle with 3600 tons of coal at 2 p. m. Christmas Day, Captain Corley spoke nothing except the New Zealand dispatch boat Tutancki searching for a dismantled ship off the New Zealand coast, 33.24 S. 168.51 E. Otherwise the trip was uneventful and was made in fifty days. The Kenli-worth is docked at Raliroad Wharf No. For Nawiliwill: H. Muendon, Jno, H. 2. Upon discharging her cargo, she will load sugar for Delaware breakwater. Miss Alice Opio, Wo Chee, Hee Fat, A. Castle & Cooke, Ltd., are her agents. She has a crew of 20 souls, all told.

# CAPT. SMITH SUICIDED.

According to the Japan Gazette of Eleele-D. B. Murdock. For Nawiliwili the 18th, it appears that Captain J.

-Col. Spalding, Geo. H. Fairchild, Rev. Tremaine Smith of the Siberia, whose Calhoun was born in Seattle 25 Chaple, M. Campbell. vessel but good for many years' ser- perity of newly married guests of honor, was enthusiastically drunk.

> The naval auxiliary Saturn which sailed for Midway Islands yesterday afternoon is the only vessel of her kind on the Pacific coast. Captain Newell talked very interestingly of the matter on board his ship yesterday.
>
> The Saturn is the old name of the

boat when she was the property of the Boston Towboat Co. from whom she was purchased by the Navy department. She was built in 1893, and is fitted to carry supplies and stores for the warships of the fleets. She does not usually carry ammunition or ordnance as the war vessels themselves are supplied with sufficient space for such cargo. Occasionally the auxiliaries do carry such freight but only for short runs

The naval auxiliary is a new thing in the American navy and dates back only to the Spanish-American war. The xperiment was then tried and it was found to be so successful that the boats have been kept in the service. On the predictions come true, 1906 will be a Atlantic Coast there are five or six of these auxiliaries and they are kept going all the time. There are navy coaling stations at Bar Harbor, Portsmouth, Boston, Narragansett and New London and then there are no more which the auxiliaries have to do with until Port Royal, S. C., is reached, Key West and Pensacola also have coaling March-Reduction in income tax; tax stations which are supplied from the auxiliaries.

Whenever it is cheaper to send coal by one of these boats than by rail or merchant vessel, an auxiliary is used-Such vessels also carry the stores for the ships in the neighborhood of the coaling stations and as soon as they have unloaded they are sent back for As there are three squadrons in the North Atlantic fleet, it keeps these little boats busy.

The auxiliaries are fitted for coaling at sea, but in actual practice this is seldem done. When it is done, the warship takes the auxiliary in tow and a wire cable is fastened to both vessels and the coal is transferred in much the same manner that is used on the plantations on Hawaii for transporting sugar to vessels lying off the landing or to bring freight from them to the shore On the cable runs a carrier on wheels to which is attached a lighter cable used to pull the carrier back and forth.

The proposition is much more inconvenient at sea, however, than when one end of the cable is fixed on land. "For this month I foretold the Coun-as of Shrewsbury's action by saying that sometimes the relative positions of the vessels may change as to elevation while the load of coal is in transit and it may be sent flying back to the ship from which it came. Another bad fea-ture about the matter is that it is almost impossible to keep the proper strain on the cable. This strain does not want to be too great nor does the cable want to be too slack and, although the warship steams ahead at about four or five knots when coaling at sea, the strain on the cable is almost an unmanageable quantity. The result is that while "coaling at sea" sounds nice and is a possibility, the loss of coal and the slow means of transferring the fuel makes it hardly a practicable propesition except under great stress of circumstances.

In time of war, the Admiral orders the auxiliaries to rendezvous at a convenient point where they unload their stores and return home for more, again meeting the fleet at the fixed rendezyous. In case of battle, the auxillaries remain in the rear as they are not intended for either fighting or fleeing purposes. They are not to be confounded with the auxiliary cruisers, the latter being merchant ships of very fast steaming speed that can be employed as scouts, which the auxiliaries proper can not, as they are not much faster than a sailing vessel.

## AMERICA MARU ARRIVES.

The Toyo Kisen Kaisha steamer America Maru, formerly a Japanese auxiliary cruiser, came and went in a hurry yesterday. It was all on account of a big consignment of silk which is being rushed to New York in competition with a similar shipment for that city, shipped by the Empress of Japan wia the Sound. Each boat has 1200 bales of silk valued at close on to a million of dollars and the transcontinental freight lines will rush both shipments east by special trains as soon as they arrive on American soil.

For that reason the America Maru took very little freight for Honolulu, 150 tons. She arrived in port about 8:30 a. m. and departed again promptly at 1145, the said premises being a portion 1 p. m. She is expected to arrive in of the land described in R. P. No San Francisco two days ahead of 4423, L. C. A. 605, Apana 1, together schedule.

Hence his wound. that he is, he made light of his own Pawaa home, to honor of Mr. and Mrs. of others, their privations and sufferwound and preferred to talk of those Ings.

#### WATERFRONT IMPROVEMENTS.

Somebody has installed a brand-nev

The improved condition of the watered. It will be two months before the The house was tastefully decorated front due to these grassed and curbed trim little steamer is ready for ser- with flowers and ferns. The menu plots of ground is being remarked upconsisted entirely of Hawaiian dell- on by tourists who have seen Hono-The steamer's net tonnage is 176 and cacles, cooked after the custom of the lulu's waterfront when it was not a thing of beauty and a joy forever, by any means. The road are well offed ter than it did a few weeks ago, before the improvements were installed.

NEVADAN SAILS FOR HONOLULU Cable advices received from San Francisco yesterday afternoon by Per-

cy Morse, general freight agent of the American Hawalian steamship line state that their steamer Nevadan sailed from that port at three o'clock yesterday for Honolulu direct with tons of cargo for Honolulu and 500 tons

She also carries five days' mail for Hawaiian post offices. The Nevadan, according to the cable, is to be looked for about January fourth, which means that she will make good time en route. If she arrives on the fourth, it will probably be late in the afternoon or during the evening.

#### INTER-ISLAND SAILINGS.

The Inter-Island fleet, said President James A. Kennedy, yesterday, will sail on much the same schedule next week as it did this. That is, the Likelike will not sail until five o'clock Tuesday instead of noon. The Kinau will leave at the usual hour Tuesday. And the Hall the same, 5 p. m.

The W. G. Hall is expected back tomorrow with a heavy load of sugar, will be one day ahead of time. The Ke Au Hou will be in Sunday, if and appurtenances thereunto belongshe arrives when she is expected. Kauai is also expected back from Hawall ports on Sunday morning.

The Maul will next week go to the marine rallway for her regular over-

# One Cold and Another

The season's first cold may be slight-may yield 2758-Dec. 26, 29, 1905; Jan. 2, 5, 9, 12, to early treatment, but the next cold will hang on longer; it will be more troublesome, too. Unnecessary to take chances on that second one. Scott's Emulsion is a preventive as well as a cure. Take

when colds abound and you'll have no cold. Take it when the cold is contracted eggs, good sitters and mothers, and of and it checks inflammation, heals the membranes of the throat and lungs and drives the cold out.
